Environment   Impact on score ●●●○

● ↗ **74**/100

Environment | Policies   Impact on score ●●●●

● ↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Quantitative objectives set on energy consumption & GHGs
Comprehensive policy on a majority of environmental issues
Environmental policy on water
Environmental policy on product end-of-life
Quantitative objectives set on water
Quantitative objectives set on materials, chemicals & waste
Environmental policy on materials, chemicals & waste

Improvement areas

Medium priority	Inconclusive documentation for policies on customer health & safety
Low priority	Inconclusive documentation for policies on air pollution

Environment | Endorsements   Impact on score ●○○○

● → **0**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

| Low priority | No conclusive information on endorsement of external initiatives or principles on environmental issues |

Environment | Measures   Impact on score ●●●●   ● → **75**/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Company-specific emergency preparedness and response procedure regarding customer health and safety

Improvement of energy efficiency through technology or equipment upgrades

Energy and/or carbon audit

Formalized process in place to assess and document risks related to customer health and safety

Actions or training to raise employee awareness on waste reduction & sorting

Water risk assessments performed

Water audit

Collaboration with external stakeholders for product end-of-life management

Provision of information on proper disposal of product to promote circular material flow

Purchase and/or generation of renewable energy

Optimization of primary packaging for dimension and weight reduction or material mix simplification

Design features for easy disassembling, remanufacturing, or recycling of products

Provision of Safety Data Sheets (SDS)

Periodical analysis on the volumes of major air pollutants or ambient air quality monitoring (testing levels of PM, NOx, SO2, VOC or heavy metals)

Work processes or technologies implemented to mitigate emissions of dust and/or particulate matter

Work processes or technologies implemented to mitigate noise

Use of eco-friendly or bio-based input materials

Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)

Regular noise measuring campaign (site boundary noise measurements undertaken)

Training employees to safely handle and manage hazardous substances

Environment | Certifications   Impact on score ●●●○   ● → **50**/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

External sustainability audit: no non-compliance found on environment

Improvement areas

| Medium priority | No information on ISO 14001/EMAS certification |

Environment | Reporting   Impact on score ●●●○

50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

| Reporting on total water consumption |

| Reporting on total weight of waste recovered |

| External assurance or verification of sustainability reporting |

| Reporting on total gross Scope 3 GHG emissions |

| Reporting on total gross Scope 1 GHG emissions |

| Reporting on total gross Scope 2 GHG emissions (market or location based) |

| Reporting on total weight of hazardous waste |

| Reporting on total weight of non-hazardous waste |

| Reporting on total gross Scope 3 downstream GHG emissions |

| Reporting on total amount of renewable energy consumed |

| Reporting on total energy consumption |

| Reporting on total weight of air pollutants |

| Total gross Scope 2 reporting value confirmed in supporting documentation |

| Total gross Scope 1 reporting value confirmed in supporting documentation |

| Reporting on recycled input materials |

| Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified) |

| Standard reporting on environmental issues |

| Company reports to CDP |

| Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation |

Improvement areas

| Low priority | No information on reporting on total amount of water recycled and reused |

| Low priority | Total gross Scope 3 GHG emissions reporting value not confirmed in supporting documentation |

Labor & Human Rights   Impact on score ●●●●   ● ↗ **59**/100

Labor & Human Rights | Policies   Impact on score ●●●●   ● ↗ **50**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor & human rights policy on social dialogue
Labor & human rights policy on working conditions
Standard policy on a majority of labor or human rights issues
Labor & human rights policy on career management & training
Labor & human rights policy on employee health & safety
Labor & human rights policy on child labor, forced labor & human trafficking
Labor & human rights policy on diversity, equity & inclusion

Improvement areas

Low priority	No quantitative target set on living wage
Low priority	No quantitative target on labor and human rights issues

Labor & Human Rights | Endorsements   Impact on score ●○○○   ● → **0**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

| Low priority | No conclusive information on endorsement of external initiatives or principles on labor and human rights issues |

Labor & Human Rights | Measures   Impact on score ●●●●   ● → **75**/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

| Provision of skills development training |
| Actions to promote internal mobility |
| Awareness training on child labor, forced labor and human trafficking |
| Impact assessments identifying potential child labor, forced labor and/or human trafficking |
| Regular assessment of individual performance |
| Individual development and career plan for all employees |
| Age verification of candidates before hiring |
| Monitoring of internal controls and effectiveness of actions taken to prevent child labor, forced labor and/or human trafficking |
| Grievance mechanism on child labor, forced labor and/or human trafficking issues |
| Grievance mechanism on discrimination and/or harassment issues |
| Actions to prevent workplace harassment |
| Compensation for extra or atypical working hours |
| Employee health and safety emergency action plan |
| Actions to address stress and psychological wellbeing in the workplace |
| Actions to prevent noise exposure |
| Equipment safety inspections or audits |
| Training of employees on health and safety risks and best working practices |
| Employee satisfaction survey |
| Health care coverage of employees in place |
| Actions to control hazardous substance exposure |

Improvement areas

Low priority	Further develop your remediation procedure for identified victims of child labor, forced labor, or human trafficking
Low priority	Declares measures on living wage, but no supporting documentation available
Low priority	Declares measures on structured social dialogue (e.g. collective agreement), but no supporting documentation available

Labor & Human Rights | Certifications   Impact on score ●●●○   ● ↘ **0**/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

External sustainability audit: only a few minor non-compliances found on labor or human rights

Improvement areas

(Low priority) No information on ISO 45001 certification

Labor & Human Rights | Reporting   Impact on score ●●●○   ● ↗ **50**/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on the percentage of direct employees covered by a living wage benchmarking analysis

Reporting on the percentage of direct employees paid below living wage

Standard reporting on labor and human rights issues

Reporting on the percentage of women employed in relation to the whole organization

External assurance or verification of sustainability reporting

Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization

Report on percentage of women within the organization's board

Reporting on the percentage of women at top management level

Reporting on number of average training hours per employee

Reporting on number of days lost to work-related injuries, fatalities and ill health

Reporting on number of recordable work-related accidents

Improvement areas

(Low priority) No information on reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees

Labor & Human Rights | 360° Watch   Impact on score ●●●●   ● → **50**/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Improvement areas

(Medium priority) External sustainability audit: presence of major or/and critical non-compliance on working conditions
